

Attn: FCC

It has come to my attention that you wish to expand the LPFM stations to take priority over AIR 1 on 89.3 in my area. I enjoy AIR 1 and it is the only station I listen to. I have 2 small children and I monitor the content that they hear and see. AIR 1 is the only family friendly radio station in our area. I do not have to worry about my children picking up an obscene phrase or word or listening to something that would embarrass me when I listen to AIR 1. AIR 1 serves our community by providing safe, clean music and talk (for all ages) that is very hard to find this day in age. I find comfort in music and my children love to sing and if we were to lose AIR 1 we would be at a loss. You can only listen to Barney sing so many times!!! It is also wonderful to listen to a station that is commercial free!!! AIR 1 is supported by its listeners and serves as an outreach to people in need with its programming. With so many people showing their support and desire to listen to AIR 1 by paying (including me) when you don't have to pay to support a radio station, it is obvious that a lot of people want to hear AIR 1!!! Please do not allow AIR 1 to be forced off the air!!! Thank you
